Re: Petition for Rule Making
Stringtown, Oklahoma & Clayton, Oklahoma

Dear Ms. Dortch:

Enclosed is an original and four (4) copies of a Petition for Rule Making to add Channel 290A at Stringtown, Oklahoma and Channel 289A at Clayton, Oklahoma

Respectfully submitted,

A handwritten signature in black ink, appearing to be "Charles Crawford", written over a horizontal line.

PETITION FOR RULE MAKING

DISCUSSION

Stringtown, Oklahoma is an incorporated city with a population of 755 people. It has its own mayor, Leslie Thompson, its own elementary and high school, post office, fire department, police department, city offices, water department and a number of churches. Stringtown is a community that is certainly deserving of local FM service. The proposed channel 290A will provide additional diversity and an outlet for local self-expression to Stringtown residents and therefore is in the public interest.

Clayton, Oklahoma is an incorporated city with a population of over 700 people. It has its own City Hall, its own fire Department, its own police department, its own water department, the Clayton State Bank, the Clayton Today Newspaper, its own library, the Cartwright Memorial Library and a number of churches. The proposed channel 289A will provide additional diversity and an outlet for local self-expression to Clayton residents and therefore is in the public interest.

¹ Channel 241A was allotted to Clayton, Oklahoma per Report and Order, released April 11, 2003.

In order for Channel 290A to fit at Stringtown and Channel 289A to fit at Clayton, the vacant allotment for Channel 290A at Haileyville, Oklahoma² must be moved to channel 252A³ at the coordinates 34 45 18/ 95 38 24. At these coordinates, Channel 252A provides complete city grade coverage over the city of Haileyville. Note that Channel 290A/ Atoka, Oklahoma and Channel 289A/ Clayton, Oklahoma were dismissed by Report and Order, MM Docket No. 01-254, released February 18, 2003.

Attached hereto is a channel study confirming that Channel 290A can be allocated to Stringtown, Oklahoma, consistent with the FCC's FM separation rules. See revision of FM Assignment Policies and Procedures, 90 FCC 2d 88 (1992).

Reference coordinates are:

34 22 51 N
96 07 24 W

Also attached hereto is a channel study confirming that Channel 289A can be allocated to Clayton, Oklahoma, consistent with the FCC's FM separation rules. See revision of FM Assignment Policies and Procedures, 90 FCC 2d 88 (1992).

Reference coordinates are:

34 35 18 N
95 19 21 W

Should this petition be granted and Channel 290A be allotted to Stringtown and or Channel 289A be allotted to Clayton, Petitioner will apply for Channel 290A at Stringtown and or Channel 289A at Clayton and after they are authorized, will promptly construct the new facility or facilities. This proposal is in the public interest as it still provides for a Channel at Haileyville, Oklahoma, Channel 252A, and additionally provides for a first service to the deserving city of Stringtown, Oklahoma, Channel 290A and for the first competing service at Clayton, Oklahoma, Channel 289A.

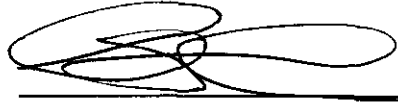

Additionally, I am expressing my interest and intentions of applying for Channel 252A at Haileyville, Oklahoma, when and if it becomes available, and after it is authorized, will promptly construct the new facility.

The factual information provided in this Petition for Rule Making is correct and true to the best of my knowledge.

² 290A at Haileyville, Oklahoma was allotted by MM Docket No. 01-254, Report and Order, released February 18, 2003.

³ 252A at Hartshorne, Oklahoma, MM Docket No. 01-225, was dismissed by Report and Order, released February 7, 2003.

Respectfully submitted,

Charles Crawford
4553 Bordeaux Ave.
Dallas, Texas 75205
